Veltigroup™

High added value services

Veltigroup considers information and communication technologies as value generating resources. Based on that vision, coupled with a strong capacity for innovation, our consultants have built a reputation for high added value services.

We believe that your ICT needs will generate more value for you if considered as an entirety. Veltigroup therefore provides a unique 360° offer covering all your ICT needs, from your systems audit to the deployment and operation of dedicated solutions.

100% of your ICT needs covered

An independent player with a major role in Switzerland

With over 300 employees between Geneva, Lausanne, Bern and Zurich, Veltigroup is a key player in the Swiss ICT landscape. With national coverage, we are able to offer multi-site services while integrating local needs. As an independent Swiss company, Veltigroup also guarantees objective analysis and unbiased responses.

Our group ownership pledges coherent governance, values and strategy throughout our five companies: LANexpert, Pragmatic, Perhalion, ITS and Epyx. With distinct areas of expertise, our specialists focus on their respective core business to best meet your customer's expectations and anticipate your future needs.

Multiple talents under one roof
